PROFSSIONAL SUMMARY

Enthusiastic and detail-oriented Computer Science graduate with a strong foundation in MEAN stack development, including MongoDB, Express.js, Angular, and Node.js. Proficient in building scalable backend services using Node.js and Express, along with developing responsive user interfaces using Angular, HTML, CSS, and JavaScript. Experienced in academic projects involving end-to-end web application development and database management with MongoDB. Quick learner with strong problem-solving abilities and a passion for creating efficient, user-centric applications. Eager to contribute to dynamic development teams and grow as a MEAN stack developer in a professional environment.

EXPERIENCE

Web development Intern

10 Seconds – Tiptur 2023

Spearheaded the development of responsive, user-friendly websites using **HTML**, **CSS**, and **JavaScript** resulting in **improved front-end functionality and user engagement.**
Collaborated with **cross-functional teams** to integrate backend functionalities using **Python**, ensuring seamless **performance and feature integration**.
Implemented a **web development** best practices, leading to **optimized website** performance and enhanced maintainability.
Managed both **front-end and backend development** tasks during the internship, **ensuring timely delivery of high-quality web solutions**.

KEY PROJECTS

Quiz Web App - Link

Description: A quiz **web app** is a **digital application** that allows users to take quizzes
Role: My role involved designing and implementing the core functionalities of the application.
Technologies Used: Dynamically Generate HTML in JavaScript, Fetch Trivia question from Open **Trivia DB API**.

Brand Landing Page - Link

Description: Designed and developed a high-converting brand landing page to enhance user engagement and brand visibility.
Role: Frontend Developer – Responsible for designing **responsive UI/UX**, **optimizing performance**, and integrating interactive elements for an **improved user experience**.
Technologies Used: React, Vite, HTML, CSS, JavaScript, Responsive Web Design Principles, UI/UX Best Practices

Cake Shop Website – Link

Description: Designed and developed a visually appealing and responsive website for a cake shop to enhance user experience and streamline online ordering.
Role: Frontend Developer – **Designed intuitive UI/UX**, implemented interactive product displays, and **optimized site performance for seamless multi-device browsing**.
Technologies Used: React.js, Vite, HTML, CSS, JavaScript, Responsive Web Design Principles

E-Commerce Website

Description: A sleek, fully functional ecommerce platform inspired by **Apple**, **Amazon, and Myntra**, offering a **seamless and intuitive shopping experience.**
Role: Designed and developed the complete frontend and backend of the website. Integrated shopping features like Add to Cart, Wish list, and Buy functionality. Ensured **responsive UI/UX across devices and implemented real-time product management**. **Improved performance and optimized checkout workflow**.
Frontend: React.js, Vite, HTML, CSS, JavaScript, Responsive Web Design Principles, UI/UX Best Practices.
Backend: Python (Flask framework) – for backend development, API integration, and server-side functionality.

Heart Attack Analysis Using Ensemble Machine Learning

International Journal Of Advanced Scientific Innovation – Publication Link
Contributed to **research on heart disease prediction** using ensemble **machine learning models**, published in IJASI. Utilized **techniques like Random Forest, Gradient Boosting**, and **SVM on healthcare datasets**. **Applied feature selection and evaluated models using accuracy, precision, and recall metrics**. **Enhanced prediction accuracy** for early diagnosis of heart disease. **Assisted in developing a tool for timely medical intervention.**

Task Manager App | MEAN Stack -Link

Developed a full-stack task management application with **JWT-based authentication** and **CRUD functionality**. Implemented **REST APIs** using **Node.js** and **Express, MongoDB** for database management, and **Angular** for frontend. Features include task creation, editing, deletion, and status tracking with a user dashboard.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science - Kalpataru Institute of Technology, Tiptur — 2020 - 2024
Pre-University in PCMB - Devika PU College, Ranebennur — 2017 - 2019

CERTIFICATIONS

Mongo DB Basics on ICT Academy Learnathon - Basics of the MongoDB
Basics of Python - Infosys Springboard
Web Development for beginners by learnCode.academy - HTML/CSS, JavaScript, responsive design
Java full Stack Web Development - HTML/CSS, JavaScript, responsive design MySQL, JDBC, JEE, Hibernate, Spring,React.js

SKILLS

Technical Skills

- MERN Stack
- MEAN Stack
- MongoDB
- Node.js
- Express.js
- Angular.js
- React.js

Soft Skills

- Problem Solving
- Team Collaboration
- Communication Skills
- Adaptability
- Time Management
